History of Flight Coloring Book (Paperback)

By Albert G. Smith

Dover Publications Inc., United States, 1987. Paperback. Condition: New. Language: English. Brand new Book. This exciting coloring book -- the first of its kind -- chronicles the amazing story of man-made flying machines. A. G. Smith's carefully rendered illustrations trace the history of aircraft, beginning with Leonardo da Vinci's design for the wing-flapping ornithopter, continuing with eighteenth-century hot-air balloons and nineteenth-century dirigibles, and concluding with such twentieth-century heavier-than-air craft as helicopters, jet fighters, and the space shuttle. Forty-seven precise line drawings include: the history-making Wright Brothers' Flyer (1903); the spunky World War II British Spitfire; the Messerschmitt ME 262 A, the first German jet (1945); the Bell X-1, the first manned aircraft to exceed the speed of sound (1947); and the Concorde Supersonic Transport, developed jointly by the French and the English (1969). An informative caption describes each craft -- its innovative design, functions, and military or historic cational as well as entertaining, this well-researched pictorial display is sure to please colorists of all ages as certainly as it will thrill anyone fascinated with man's conquest of the air.

Reviews

Very useful to all of category of people. I actually have read through and that i am sure that i will likely to go through once more again in the foreseeable future. I realized this book from my i and dad advised this publication to find out.

-- Alta Kirlin

This is the very best publication i have got read until now. It is definitely simplified but shocks within the fifty percent of the pdf. You may like how the article writer create this pdf.
